

P.PEND

# L.F.C Lay Flat Cutter

The ideal tool for cutting holes in the "layflat" irrigation hose.

This special tool for use with the layflat hose cuts a precise and perfect round hole for connector components.

## Features:

- A small efficient tool with a special geometrically constructed cutting blade that significantly facilitates the holing of the layflat hose.
- The tool is manufactured from high strength plastic materials.
- The cutting blade is made of high quality sharpened steel and fully hardened to ensure long life.

## Advantages:

- The tool is lightweight, compact and strong.
- The tool is easy to hold in the palm of the hand.
- The waste plastic does not fall into the piping and is discharged from the tool.

## Tool Sizes:

- The tool is available in various sizes: 12mm, 14 mm, 16 mm, 17mm and 19 mm
- Additional sizes can be manufactured on special order.

## Maintenance:

The blade should be cleaned and oiled occasionally to ensure maximum performance.

New model

Beware of poor quality imitation tools
